

Request for Proposal (RFP)

1. Introduction

ABC Corporation invites proposals from qualified vendors to design and implement an AI-powered solution to automate RFP response generation.

2. Project Overview

The objective is to reduce manual effort in responding to RFPs by leveraging AI for document parsing, knowledge retrieval, and proposal drafting.

3. Scope of Work

- Upload and process RFP documents (PDF/DOCX)
- Extract key requirements and sections
- Retrieve relevant past proposals
- Generate structured proposal drafts
- Provide downloadable output

4. Functional Requirements

- RFP document upload capability
- Requirement extraction (AI-based)
- Search and retrieval of past proposals
- Proposal generation (Executive Summary, Approach, etc.)
- Simple user interface

5. Technical Requirements

- Cloud platform: Microsoft Azure
- Use of AI/ML services (Azure OpenAI preferred)
- Secure storage and access control
- Scalable architecture

6. Deliverables

- Working application
- Source code
- Deployment guide
- Demo walkthrough

7. Timeline

Project duration: 4–6 weeks. Demo expected within first 2 weeks.

8. Evaluation Criteria

- Technical approach (30%)
- Relevant experience (25%)
- Cost (20%)
- Timeline (15%)
- Innovation (10%)

9. Submission Guidelines

Proposal must include technical design, timeline, and cost. Submit within 2 weeks of RFP release.
